Report on Activities conducted under MOU during the academic year 2021 – 2022

Scheduled Dates : 03-02-2022 to 05-02-2022

Students participated: III BSc BZC

Activities conducted: Dept. of Botany and Ravi gardens, Bapatla had signed a MOU to impart training to the students of Botany in cultural practices and propagation methods of plants. As a part of the MoU students of III BSc BZC have attended a training programme at Ravi gardens. Students were undergone experiential learning in cultural practices in a garden/ nursery like removal of weed plants, application of fertilizers, watering of plants etc.

Under plant propagation students were trained how to graft and budding on Adenium plant. After demo students have done grafting and budding themselves. After fifteen days they once again visited Ravi Gardens and checked the graftings and buddings to ensure were they success or not. 80% of them were successful. This proves that the purpose of MOU is achieved to some extent.
